

Psychology (BA) with an Emphasis in Mental Health

This program is offered by the College of Science and Health/ Psychology Department. It is available online, at the St. Louis main campus and at select international campuses. Please see the Locations Offering Undergraduate Programs section of this catalog for a list of campuses where this program is offered.

Program Description

The bachelor of arts (BA) in psychology with an emphasis in mental health is designed to provide an understanding of how cognitive, behavioral, personality and social factors are involved in mental health and illness. Students who have successfully completed the degree will be prepared to pursue a variety of graduate and career opportunities within mental health-oriented fields (e.g. counseling, nursing, psychology, social work).

Students graduating with a bachelor of arts (BA) in psychology with an emphasis in mental health will need to pursue a graduate degree before they are able to obtain professional licensure. Students are encouraged to check entrance requirements for any post-graduate programs prior to finishing their BA at Webster in the event they need to take additional coursework.

Students working toward the BA in psychology with an emphasis in mental health should consider the pre-professional program with professional counseling. This pre-professional program can result in students achieving their BA/MA up to a semester sooner. More information can be found at <https://www.webster.edu/catalog/current/undergraduate-catalog/preprofessional-programs.html#pre-counseling>

Learning Outcomes

Upon completion of the program, students will be able to:

- Describe the major concepts, theoretical perspectives, empirical findings and historical trends in psychology.
- Implement the use of scientific reasoning to interpret psychological phenomena and demonstrate the ability to interpret, design and conduct basic psychological research using statistical analysis.
- Apply ethical standards to evaluate psychological science and practice and apply those standards to build and enhance interpersonal relationships locally and globally.
- Demonstrate effective writing, exhibit effective presentation skills and interact effectively with others.
- Discuss the occupational pursuits available in a variety of settings given their psychological knowledge, skills and values.
- Discuss the psychological and behavioral processes in mental health and illness.

Degree Requirements

For information on the general requirements for a degree, see Baccalaureate Degree Requirements under the Academic Policies and Information section of this catalog.

- 49 required credit hours
- 3 international language requirement credit hours
- Applicable University Global Citizenship Program hours
- Electives

Special Requirements

- Courses completed with a grade below a C- do not count toward fulfilling the specific course requirements of the major.
- Within the 6 credit hours of psychology electives, at least 3 credit hours must be at the 4000-level.

- No more than 6 credit hours obtained in senior thesis, practica, independent learning experiences, reading courses and assessment of prior learning may be applied toward the 49 credit hours required for the major. However, students may use any number of thesis, practica, independent learning experiences, etc. toward their overall bachelor degree requirements.
- Transfer students can apply up to 18 credit hours of approved PSYC course work from other colleges/universities toward the psychology major. Students may transfer in 3 credit hours of approved foreign language course work to meet the International Language requirement for psychology.

International Language Requirements

- A minimum of 3 credit hours in a non-native language (expertise demonstrated by coursework or testing) are required in addition to the requirements for the major. Courses used toward the international language requirement may also be used to fulfill general education requirements or a major/minor in a foreign language.
- Transfer students who have completed their 3 credit hours at an institution of higher education are considered to have fulfilled the requirement, as are students who have scored a "3" or higher on an Advanced Placement exam in a non-native language.
- Students whose native language is not English and who are studying English will be considered to have achieved their foreign language requirement if they successfully pass an ESL test of their English proficiency (e.g., TOEFL). Students who are from bilingual families but have no evidence of academic study of the second language on a transcript will need to take one course.
